

OPTION 1

Using the Steritech Bee Carton

No more wrapping or strapping required

- Place the liner on top of the open carton
- Place your bee box into the carton
- The carton liner will wrap itself around the bee box
- The Bee Carton can be re-used up to 5 times if kept in good condition
- It takes less than 1 minute to prepare a bee box
- The Bee Carton internal dimensions are L56cm x W43cm x H42.5cm

\$15 per bee box for the irradiation treatment
\$4 for purchase of a Steritech Bee Carton

Prices do not include GST

OPTION 2

Wrap and strap your bee boxes

- Singles or doubles no more than 25kg accepted
- Double wrap boxes using strong wrapping/bags
- Strap or tape boxes after wrapping

\$15 per bee box for the irradiation treatment

Price does not include GST

Note: Polypropylene components have been shown to deteriorate when exposed to doses 28kGy and above Steritech NSW cannot guarantee the dose will stay under 28kGy and is not held liable for any damage caused by the treatment. It is advisable to remove polypropylene items or contact Steritech QLD who can assist you..

I do hereby authorise Steritech Pty Ltd to arrange for the treatment of the said goods by Gamma Irradiation at a minimum dose of 15kGy. I further agree not to hold Steritech Pty Ltd responsible for any damage which may be caused during treatment or carriage of the goods. I also understand that I will be required to return to Steritech to collect my goods or fix any issues if any of the above requirements have not been met.
