

## Enjoy fully palletised processing locally in Victoria

Steritech Merrifield's new X-Ray Facility is now offering commercial treatment to the Beekeeping Community.

### X-Ray Sterilisation Kills:

- American Foulbrood (AFB)
- European Foulbrood (EFB)
- *Nosema ceranae*
- *Ascosphaera apis*
- Small Hive Beetle
- *Nosema apis*

X-Ray Sterilisation is a chemical-free, heat-free alternative used to protect beehives from disease and pests.

**Sterilisation with Steritech Merrifield is easy**

## Preparing Your Hives for Treatment

1

### Send your request

Fill in the Bee Equipment Irradiation Request form on the next page and email it to our Merrifield team.

2

### Stack your pallet

All lids and queen bee excluders must be stacked on top of boxes or on a separate pallet. Lids cannot be placed inside boxes.

3

### Wrap your pallet

Pallets must be completely sealed. Wrapped with plastic top and bottom.

4

### Drop your pallet off

Bring your wrapped pallets to Steritech Merrifield:

21 Titan Drive,  
Mickleham  
VIC, 3064

### Pallet Information

Full Pallet:  
L 1.2m x W 1.2m x H 2.4m

Half Pallet:  
L 1.2m x W 1.2m x H 1.2m

Maximum Weight:  
670kg

*Overweight pallet charge applies.*

### Don't have pallets?

Steritech Merrifield can provide you with empty pallets and plastic.

## Book Your Treatment
