Does this consignment need to be kept frozen?		
Does this consignment need to be refrigerated?		
Does this consignment contain fragile goods?		
Target Dose Range:		

Steritech Requirements	
Pallet Dimensions	The maximum allowable dimensions of a pallet are 240cm x 120cm x 120cm (Height x Width x Length). Extra charges may apply if pallet dimensions exceed these limits. Please contact Steritech if you have unusual or large sized items.
Pallet Weight	The maximum allowable weight of a pallet is 1000kg. Extra charges may apply if pallets exceed this limit.
Product Identification	Pallets must be labelled clearly with identification that can connect them to the customer name listed on this form and either the purchase order number or the quarantine direction reference listed on this form.
Pallet Security	Products that contain any liquid, including honey, need to be completely sealed to prevent leakage.
Transport	Please inform all transport/courier drivers that goods will only be released if a valid purchase order number or a Steritech Order number or invoice number can be provided on pickup.
