Terms of Treatment

The Terms of Treatment for all Bee Equipment treated through Steritech QLD are as follows:

1. All bee equipment must be free of Honey, Bees, Hive Beetle and Larvae. All bee equipment must be completely sealed (bagged/shrink wrapped/plastic under and on top reaching 30cm up/down the side of the pallet). Any bee equipment not completely sealed or in treatable condition can be rejected on delivery. Any equipment receipted with live insects (such as bees) may be placed in cold room or freezer storage prior to treatment to immobilize insects and prevent spread.
2. Maximum pallet dimensions; 220cm tall, 120cm wide, 120cm long. Exceeding this will incur additional charges.
3. Bee equipment pallet(s) weighing over 620kg will require additional processing time and incur additional charge(s).
4. Small and large drums or containers of honey must be no more than 75% (3/4) full.

Clean up and/or storage charges will result if the above terms are not met.

1. \$1800 minimum charge for honey leakage in Warehouse or Irradiation chamber or Bees, Hive Beetle and/or their larvae present either within the pallet or escaping from it.
2. \$60 per pallet per week storage charge beginning on 14 days after notification of treatment invoice.
